

—Open Letter to Fox CEO, CNN CEO, and NBC CEO Dear Lachlan Murdoch, Jeff Zucker, and Cesar Conde,

It has become increasingly evident that the major news networks under your leadership, namely Fox News, CNN, and NBC News (respectively), have overstepped their boundaries in influencing public opinion and shaping political narratives. The Biden beheading and Trump crowning on your programs evidences this sham democracy. As concerned citizens of the United States, we are compelled to correct the concerning trend of media manipulation and bias that has permeated your networks.

The Role of Media in Democracy

First and foremost, it is crucial to emphasize that the power to elect a president lies solely with the American people. The media should be an impartial observer and reporter of facts, not a kingmaker or influencer of electoral outcomes. You, as CEOs, must understand that your networks do not have the authority or legitimacy to dictate who should lead our nation.

Representation of the American Public

Furthermore, it is essential to remind you that you and your wealthy donors do not represent the diverse voices and opinions of the American public. The constant barrage of biased reporting and sensationalism polarizes our society further and undermines the principles of democracy, a responsibility that should weigh heavily on your shoulders. We reject the notion that your networks speak for "we, the people," as you are far removed from ordinary citizens' everyday struggles and aspirations.

Loss of Trust and Viewership

Considering these concerns, we want to clarify that we are deeply disappointed and have decided to indefinitely sever ties with your networks. The blatant disregard for journalistic integrity and ethical standards has eroded our trust in Fox News, CNN, and NBC News. We refuse to be complicit in perpetuating a media landscape prioritizing profit over truth.

Misuse of Freedom and Democracy

Lastly, the networks under your control are misusing the noble concepts of freedom and democracy for their agenda. True freedom of the press entails responsible reporting that upholds democratic values, and fosters informed civic engagement. By weaponizing misinformation and propaganda, you are not just betraying the American public but also the very essence of a free press, a grave betrayal of trust that is intolerable.

We demand that you immediately rectify the situation. The American public demands and expects transparency, accountability, and fairness in journalism. We will no longer tolerate being manipulated by corporate interests masquerading as champions of 'Democracy.'

We, the People you erroneously refer to as "your viewers," see you and your minions as the 19th-century Buffalo Hunters you are. You all gorge on the roast tongue, wrap yourselves in fine hides, and leave the rotting, fly-covered mess behind for "your viewers." You must

remember what happens to Kings and Queens in the Modern World. Your King and Queen-making is not Freedom and Democracy, nor are you.

Why aren't your networks and reporters asking Trump to take a Minnesota Multi-phasic Personality Index. Why aren't you asking Trump if he has OCD, Narcissism and/or Sociopathy? The media has been and is running a bloodless Coup d'état, the Networks have no authority or legitimacy to select and deselect U.S. Presidents.

In ABC's George Stephanopoulos' exclusive interview with President Biden, Stephanopoulos attempts to make the case that the Presidency has an expiration date, merely because “journalists” like Stephanopoulos say so. We no longer need “we the people,” as “we” have been replaced by Stephanopoulos. According to Stephanopoulos math formula, in the year 2027, Trump will also be expired, just like Biden. **Why isn't Stephanopoulos interviewing Trump about Trump's 2027 expiration date?**

All your networks have a version of ‘fair and balanced’ reporting. Where are the cadre of ‘reporters’ begging and cajoling Trump to take a **Minnesota Multiphasic Personality Inventory** (MMPI) to ‘rule out’ Narcissism, Schizoid Affective Disorder and severe OCD? Where are the plague of reporters asking Trump to see a psychiatrist and make the records public?

Sincerely,
Concerned Citizens
